We applaud the rise in state-sector intake across Oxford University and are glad to see individual colleges praised ([Report](#), 16 January). Perhaps Mansfield College deserves a mention. In a quietly radical fashion, we have led the way in Oxford access for 20 years. Our state intake has been over 80% for 10 years and over 90% since 2016. And more than 90% of our state-sector intake this year is from non-selective schools - a meaningful statistic for Oxford University.

**Lucinda Rumsey**

*Senior tutor, Mansfield College, Oxford*
