EOPMG MCR President’s Annual Report

Andrew Dwyer, 16th May 2016.

This report covers the period of the academic year from the previous report in November 2015 in order to sync it with the end of MCR President term which runs through to the end of 9th week Trinity. This is in the hope a more informed Equality Report will be able to be produced in the future. Since the last report, Mansfield MCR has developed the role of both Welfare and Equalities into the core of its activities. This has now formed a close relationship of welfare and equality concerns into a significant emphasis of what the MCR does and is concerned about.

Below are some examples of how we have progressed since the last report:

- Continued collaboration with the JCR has continued with an upcoming LGBTQ+ themed film night.
- A grounding of the Equalities Representative as a beacon for liberation issues including, but not limited to, women’s representation, race equalities, disabilities and LGBTQ+.
- Training of an additional two Peer Suppor ters.
- A continuation and growth in popularity of Welfare Breakfasts and Teas continue, in addition to other non-alcohol related events such as ice-skating.
- Pending the MCR approval, the Constitution will be gender-neutral and will formalise the role of the Equalities Representative as a permanent member of the MCR Bench. This was not the case previously, either for Equalities or Women’s Representative.
- The Equality Representative has completed the sexual violence First Respondent training.
